STUDIES IN PROGRESS:

Katz DL (PI): Continuation of Effects of Walnut Consumption on Endothelial Function in Type 2 Diabetes: A Randomized, Controlled, Cross-Over Trial; California Walnut Commission. Goal: A randomized, controlled, cross-over clinical trial, to assess the effects of walnuts on endothelial function in overweight adults with elevated waist circumference and at least one risk factor of metabolic syndrome. 10/09 – 12/10.

Katz DL (Co-PI) Exploring Massage Benefits for Arthritis of the Knee (EMBARC); NCCAM. Goal: Build on the design and findings of the pilot trial to verify the efficacy of Swedish massage for OA of the knee, determine the optimal dose and treatment regimen, provide longer term follow up, begin to investigate mechanism of action, and assess potential disease modification using appropriate biomarkers. 7/09 – 6/11.

Katz DL (PI): Continuation of Effects of Fruit and Nut KIND Bars on Endothelial Function in Overweight (BMI \geq 25) Adults: A Randomized, Controlled, Trial; PeaceWorks. Goal: To determine the effects of an ad libitum diet enriched with 2.8 oz / 80 g of KIND Fruit and Nut snack bar twice daily for an 8-week period in a pilot study on endothelial function, anthropometric measures, and blood pressure in overweight adults with elevated waist circumference and additional risk factor for insulin resistance. 1/09 – 12/09.

Katz DL (PI): Effects of Juice Plus+® Supplementation on Endothelial Function in Overweight Men: A Randomized, Controlled Trial; National Safety Associates, Inc. Goal: To determine the effects of daily ingestion of Juice Plus+® capsules containing Orchard, Garden and Vineyard blends on endothelial function measured as flow-mediated dilatation (FMD) in a randomized, double-blind, placebo-controlled trial. Specifically, to demonstrate an absolute improvement of 3% or more in FMD after a high-fat meal (consisting of a milk shake made with ice cream, cream of coconut, and pasteurized eggs) among overweight men in the intervention group relative to the placebo group. 6/09-8/10.
